IMPORTANT!

Look below at the Upcoming Meets. To the right side of each meet there is a countdown timer to enter the meet online. Be sure you enter before the timer reaches zero! Do not assume you have the entire last day to enter, you probably do not. Many meets have the timer set to end in the morning (in the time zone of the meet). When the timer reaches zero, the meet is closed. After the meet closes, you will be subject to the rules for the meet regarding failure to enter online. That may mean substantial late fees at some meets. For other meets, you may not be able to enter at all even with a late fee. DiveMeets lists meets in accordance with the rules as mandated by meet's governing body. DiveMeets can not open a closed meet or waive a late fee. It is always a good idea to register early. You can come back and change your dives online and in some cases at the meet registration table.

The important thing is to register before the timer reaches zero!
